

03 Call - Case Creation

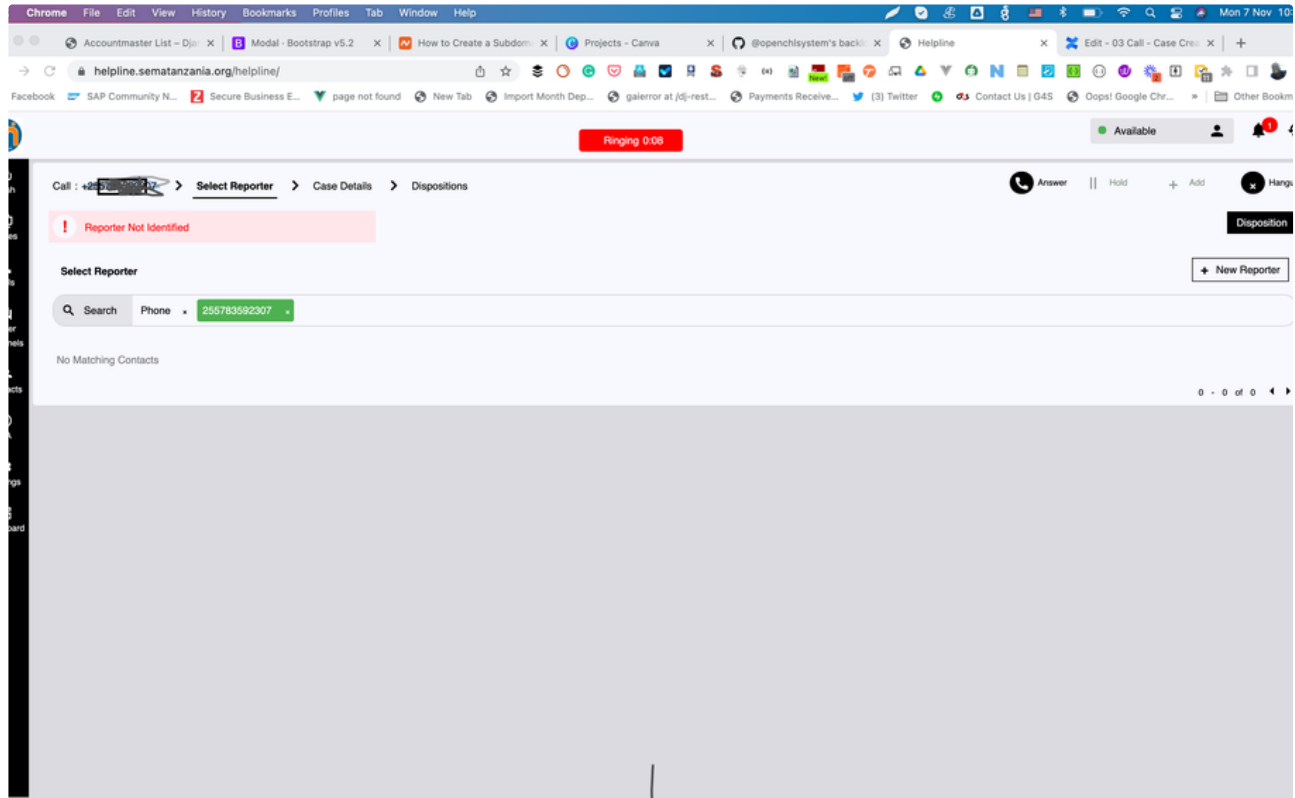

User Acceptance Testing (UAT) is **the final stage of any software development life cycle**. This is when actual users test the software to see if it is able to carry out the required tasks it was designed to address in real-world situations.

In this situation, we have identified the Call Case Creation process as critical to the success of the project.

The main links are provided for this testing are as follows.

The system has an inbuilt calling system.

When a call comes in you will see the following screens.

you can click the Answer button

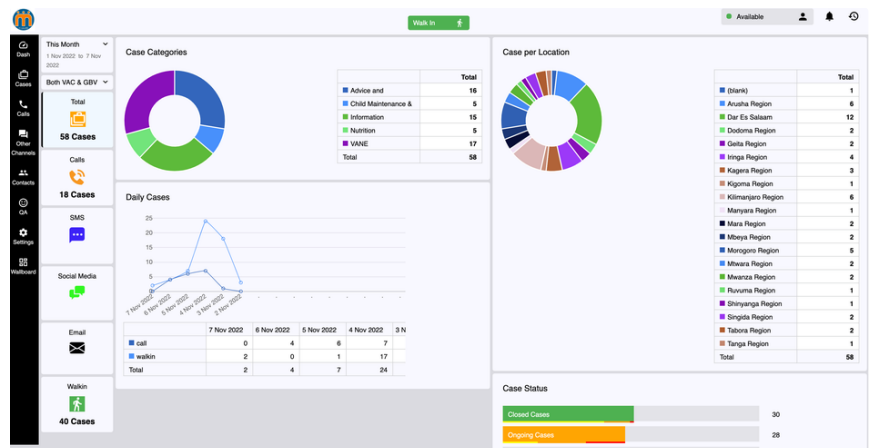

Then you click on select reporter

Then you can follow the normal process for case creation.

General Guide.

- ☐ On the top of the page, click the Walkin Button after logging in.
- ☐ Enter the reporter's details by clicking on the Enter Reporter Button. A reporter is someone who walks to the call center to report violence against children.

After clicking on the reporter details above a form comes up with the following details.

- ☐ Enter the required information. The mandatory fields are marked with an asterisk. Click Next to complete the process.

Edit Reporter Details

Reporter's Name

Type Reporter Name

Age

34

DOB

Age Group

Location

Iringa Region > Mafinga Town Council > Changarawe Ward

Sex

Female

Nearest Landmark

Enter Name of anything that can be used to Identify The location

Nationality

Phone Number

Alternative Phone

Email

Update

After saving the reporter details the workflow moves to new case creation.

When you click the new case button a new form will open for you to create the case
