

02 Walkin Case Creation

User Acceptance Testing (UAT) is **the final stage of any software development life cycle**. This is when actual users test the software to see if it is able to carry out the required tasks it was designed to address in real-world situations.

In this situation, we have identified the Walkin Case Creation process as critical to the success of the project.

The main links are provided for this testing are as follows.

General Guide.

- ☐ After login Click on the Walkin Button on top of the page.
- ☐ Then click on the Enter Reporter Button to allow you to enter the reporter details.
(A reporter is a person who walks to the call center to report an incident of violence against children.)

After clicking on the reporter details above a form comes up with the following details.

- ☐ Enter the required information/ The mandatory fields are marked with an asterisk. Click Next to complete the process.

- ☐ Determine which case type your need to create by selecting the buttons on top of the screen. and select New Case.

- New Case - this will load the form with the Abuse categories as the default categories

you will see a form as indicated
