Introduction

BITZ IT CONSULTING is a full-service IT services provider specializing in network installation, support, and maintenance. Our headquarters are located in Nairobi, Kenya.

Our engineers, designers, and installers are certified and licensed to install computer networks in small businesses, multi-family residences, and large institutions such as universities and hospitals.

In this Brief, you'll find a summary of requirements In -order for us to reduce the downtimes at the helpline.

This Brief is valid until 14/05/2022 Should you need to extend your decision past that date, we'll be happy to revisit this document to ensure all pricing and installation schedules are accurate at the time of signing.

Regards,

Nelson Adagi

Project Outline

Childline Kenya would like to improve its Helpline Operations by reducing downtimes caused by low-capacity resources.

In order to achieve this child line Kenya requires a to purchase additional hard-disks to be placed in the new server already at the site. This will increase the capacity from 600GB to about 2.4 TB and an additional lifespan of 4 years.

Childline Kenya wishes to partner with a qualified vendor to supply the license which is to be used at their Kabete offices.

To accomplish these goals, BITZ IT CONSULTING proposes the following:

HP DL 380 600G Hard Disks 3 pieces

872477-B21	HPE 600GB SAS 10K SFF SC DS HDD (For GEN10) X 3	KES	132,000
------------	--------------------------------------------------	-----	---------
